**TO WHOMSOEVER IT MAY CONCERN**

I knew Shri Ahmad Ali, Lecturer, Department of Geography, Karim City College, Jamshedpur, Jharkhand as a very promising student at the Aligarh Muslim University during the time I was posted there as Vice-Chancellor. He was pursuing his Ph.D. thesis on "Geographical Patterns of Social Well-being in West Bengal" and in addition to his extensive research pursuits he was a prolific writer in Urdu and English and after reading some of his published articles, I was deeply impressed by his wide knowledge and breadth of his vision. Very few amongst his contemporaries had interest in areas other than the assigned academic field.

Some articles published by Shri Ahmad Ali, particularly, "Manu and Women's Bill", "Not Without Safeguards", "Independence Day", and "Say Sorry Mr. Annan" are reflective of his understanding of the current events and his total commitment to the well-being of the common man. Ahmad Ali has a flair for higher pursuits and realization of ideals in life. His Essay "Bypassing Real Problems" published in the Pioneer of 14<sup>th</sup> October, 1997 speaks volumes of his commitment to the moral values enshrined in our cultural heritage. His command over the language he writes in, his voluminous vocabulary and scintillating style make him a promising and creative writer.

I have also heard Shri Ahmad Ali in seminars and debates and his writing ability is well-matched with his oration and a combination of the two makes him a perfect teacher, guide and a philosopher for his students, friends and colleagues. He has a very sound understanding of the complex issues facing the society and what is more interesting is that he is willing to take up social and economic reforms enthusiastically. I have, therefore, great pleasure in wishing him success in his endeavours.

(DR. M. RAHMAN)
